

# Palmer Long Term Ecological Research

**'Oceans of Fun' at  
UCSD Open House  
October 25th, 2003**

Scripps Institution of Oceanography  
Presents 'Oceans of Fun' during UCSD Open  
House!

Discover what's fascinating and fun about oceanography at  
this year's Scripps Institution of Oceanography/UCSD Open  
House.

The SIO portion of UCSD Open House will be held on the  
Scripps campus on **Saturday, Oct. 25, 8 a.m. to 4 p.m.**,  
and is **free** and open to the public. Shuttle buses from UCSD  
will be available for  
transportation to Scripps.

This year's Open House theme is "**Oceans of Fun**," chosen  
in honor of the Scripps Centennial. Scripps turned 100 years  
old on Sept. 26, 2003.

Scripps will offer dozens of things to see and do at Open  
House, including ocean and earth science booths, lively  
entertainment, and an assortment of family activities, from a  
surf clinic to hands-on science demonstrations. The Scripps  
Pier, normally closed to the public, will be open for  
self-guided tours from 10 a.m. to 3 p.m., and docents will  
offer tours and fascinating narratives about the institution's  
history.

*Hi Science Department Educators!  
Here's an open invitation to all of you!  
Come learn about oceanographic  
research and marine ecology being  
conducted in Antarctica. I've been  
assembling polar marine science  
curriculum materials for Palmer Station  
Long-Term Ecological Research  
program. It's an area west of the  
Antarctic Peninsula that's  
teeming with life! I'd love  
to see you all. Please visit  
or send your students for  
extra credit!*
